## Acumen Project Win: Manage TriMet's eFare System Integration

Acumen is pleased to announce TriMet, the transportation agency that provides bus, light rail and commuter rail transit services in the Portland, OR metro area, has selected us to be part of a cutting-edge project management team for its new eFare system. The team is supporting the integration of [TriMet's new state-of-the-art fare system](#).

In addition to Acumen's overall project management tasks, our staff is providing document control, technical editing, system testing and supervision of the eFare deployment.

TriMet's new eFare system will allow riders to pay for the bus or train by using a fare card, smartphone or their own credit card.
