

Employee Spotlight: Mobolaji Ojuri

Meet Office Engineer Mobolaji Ojuri, who joined Acumen Building Enterprise, Inc. in 2016. He currently works on the BART M03 Interlocking Renewal Project, which serves as a pilot for a systemwide retrofit. As part of the construction management team, Mobolaji's primary responsibility as an office engineer is document control. He also sets up and documents meetings and assists the resident engineer as needed.

Mobolaji measures tie spacing within a BART turnout assembly.

He also worked on the Castroville Bicycle and Pedestrian Overpass Project in North Monterey County.

Congratulations are in order: Mobolaji recently passed his Engineer in Training exam, which is the first step in becoming a professional licensed engineer! In five years, you may see him working as a civil engineer, managing a construction project of his own.

Visit www.acumentransit.com for more information about Acumen's projects and services.
