

Heavy Civil Construction Inspector

We are seeking a mid-level Heavy Civil Construction Inspector with a minimum of five years of relevant inspection experience on heavy civil projects, preferably transit works, highways or tunneling. The ideal candidate will possess a strong background in reinforced concrete structures, structural steel, roadways, and other related structures. In this role, you will be accountable for working with contractors and subcontractors to ensure quality compliance, review plans and specifications, and support construction record-keeping. You also will provide on-site monitoring and visual inspection of materials at receipt and installation, as well as coordinate third-party agency testing and sampling activities.

If you are interested in providing excellent heavy civil construction inspection support, have the ability to manage your time well, and want to work with and support a wide variety of people, this job is for you. The pay is competitive.

The successful applicant will have the following qualifications and capabilities:

- Transit, highway or tunneling inspection and quality control experience
- Strong experience working with Microsoft Office, especially Excel
- Strong verbal and written communication skills
- Effective leadership skills while supporting a high-stress and fast-paced environment
- Strong analytical and problem-solving skills
- Able and willing to work night shifts with occasional flexible schedules, including weekends as needed to support the project requirements
- Completion of OSHA 10-hour safety training class
- Possess a valid First Aid Card
- Perform basic math calculations required for material quantity/quality verification
- Capable of standing, walking, and climbing stairs for extended periods
- Identify Change Work versus Contract Work

Responsibilities:

- Inspect construction work, primarily Heavy Civil work, for compliance with contract plans and specifications
- Day-to-day coordination and interface with the general contractor's superintendent and quality control team
- Document construction progress (i.e. photographs, Inspector Daily Reports, Excel spreadsheets)
- Interpretation of drawings and specifications to assess compliance
- Assist with notices to comply, construction cost estimates, change order evaluations, submittal reviews, and coordination with owner maintenance personnel

You must use the APPLY link below to apply for this position. The link will direct you to the Careers Portal on our website. Please submit your cover letter describing why you are the ideal candidate for the position and your resume. Please submit your documents in Microsoft Word format.
